Note that these figures do not represent a Distributor's profit, as they do not consider expenses incurred by a Distributor in operation or promotion of his/her business. The figures above refer to gross income (total income before any expenses are deducted). The expenses a Distributor incurs in the operation of his or her It Works! business vary widely. Expenses for Distributors can be several hundred or thousands of dollars annually. You should factor in estimated expenses when projecting potential profits. Such operating expenses could include advertising and promotional expenses, product samples, training, travel, telephone and Internet costs, business equipment, and miscellaneous expenses. The earnings of the Distributors in this chart are not necessarily representative of the income, if any, that an It Works! Distributor can or will earn through his or her participation in the It Works! Compensation Plan. These figures should not be considered as guarantees or projections of your actual earnings or profits. Any representation or guarantee of earnings would be misleading. Success with It Works! results only from successful sales efforts, which require hard work, diligence, and leadership. Your success will depend upon how effectively you exercise these qualities.
