MARC G NOCHIMSON- AN EXPERT AUDITOR AND FORENSIC ACCOUNTANT

by marccom · [Leave a Comment](#)

Global financial crises has increased the importance of auditor in the globalized economy, however with the growth of the economic ties between the nations the accounting entities are becoming more responsible for sustaining the validity and accuracy of the financial reports. A regular audit check has also become mandatory to see that accounting standards are met and the same comply with the current regulations.

Every business depends on the accuracy of the financial reports to meet the competitive business environment and make the right decisions. This work is done by an expert auditor with the highly recommended name is **Marc G Nochimson**. With the backing of many years of experience, Marc G uses his skills of Audit planning and risk assessment to make an analysis of the businesses and current economic situation. He prepares the audit reports which assist the decision makers including directors, managers, and business directors to come up with the correct judgment of the situation and make timely business decisions. Marc's skills in preparing of the report give the business gurus peace of mind and build their confidence.

Marc's area of expertise including management of the firms accounting and tax department and auditing, and while working for many companies he had been responsible for performing and conducting many reviews to increase the operational efficiency in the transportation segment and helped in the increase in the revenue of 5 dollar million to more than one billion dollar. He had also been responsible for performing review meetings on quarterly bases and in monitoring the progress in the transport segment to assure that transport sector is operated profitably and efficiently.

To add to it, Marc has also been examining the annual plan proposal, found and co authored his findings in many seminars in the transport industry. He has also been credited to voice his opinion in many of the seminars, workshops and conferences. Another field to which he is most known for is Forensic Accountant. As MD Oppenheim and Co Marc's duty as a Forensic Accountant lie in investigations about the fraud cases. As a member of MD Oppenheim and co he has been credited for many value additions programs to his assignments and organizing many in house seminars and accredited for training and managing many staff members in the **Forensic Accounting department**.

Professional integrity he shows in his work has garnered him with commendable respect of his fellow workers and seniors and of course his clients to whom he serves.
