2021 BRAND AFFILIATE SALES COMPENSATION SUMMARY

U.S. Market

Compensation

There are two fundamental ways in which a Brand Affiliate can earn compensation:

- Through retail markups on resales of products purchased at wholesale prices; and
- Through sales compensation (sometimes called bonuses) for product sales and the sales by the Brand Affiliate and others on their Team.

As with any other sales opportunity, the compensation earned by Brand Affiliates varies significantly and is based upon factors such as goals, ambition, time, commitment, and skills. There is no cost or purchase requirement to become a Brand Affiliate. People become Brand Affiliates for various reasons. Many people become Brand Affiliates simply to enjoy the Company's products at discounted Member Prices. Some join the business to improve their skills or to experience the management of their own business. Others become Brand Affiliates, but for various reasons, never engage in Business Activities. Consequently, many Brand Affiliates never qualify for payment of sales compensation.

Generating sales compensation as a Brand Affiliate requires considerable time, effort, and dedication. Success will also depend upon your skills, talents, and leadership abilities. There is no guarantee of financial success and results will vary widely among participants.

Brand Affiliates can buy products from the Company at Member Prices and resell the products to customers.
